

How to Spot Online Scams

1. Look out for suspicious emails and messages.
 - Don't click on links or download attachments from unknown senders.
2. Check the URL before entering personal information.
 - Secure websites start with 'https://' and have a lock icon.
3. Be cautious of urgent requests or threats.
 - Scammers often try to pressure you into acting quickly.
4. Never share your passwords or security codes.
 - Legitimate organizations will never ask for these.
5. Verify with official sources.
 - Contact companies directly using verified contact information.

Report suspicious activity to local authorities or online fraud centers.
